

NW Training Integration Study Team Minutes
10 May 2001
Meeting held via Telephone Conference call

1. During the **22 March 2001** meeting, Welder workmanship was discussed– PSNS advised that Technical Manual 248 requires welders to understand inspection requirements and be able to do inspections. IMF welders will be required to comply when working in the Shipyard. After some discussion, it was determined that IMF may already provide this training to their welders and that the QA inspection is in addition to the welders inspection. IMF will check on their procedures and will advise the Team at the next meeting. During the **29 March 2001** meeting IMF advised that their welders are trained to the requirements of the 248 manual, but are not allowed to sign off their own work. IMF welders working at PSNS will require some training, but the team still needs to determine how much, IMF welders are not Visual Test (VT) qualified. IMF agreed to provide Mr. Rutter, PSNS, with a copy of the test used at IMF. The Team will discuss at the next meeting. During the **12 April 2001** meeting both PSNS and NAVIMFAC PACNORWEST representatives advised that additional time was required to work out a solution. Will be discussed at the next Training Team meeting. During the **19 April 2001** meeting PSNS representative advised that a meeting would be held during the week of 23 April to discuss welder workmanship. The test forwarded by IMFB has been received by PSNS Mr. Rutter. Results from the meeting and review of the IMFB test will be discussed at the next meeting. During the **10 May 2001** meeting PSNS and IMF advised the Team that additional time was required. The results will be briefed at the 24 May 2001 meeting.
2. IMFB advised that they concurred with the updated matrix, with some minor changes. The Team concurred with the changes; the updated matrix will be distributed by PSNS.
3. IMFB, Ms. Bence, advised the Team that the Forklift operator and asbestos worker review sheet were being redone by IMF to match current requirements.
4. Mr. Muhleman, advised that a Team Leader meeting had not been scheduled, but expects it to be scheduled once the letter from NAVSEA and CINCPACFLT has been received by the Commanding Officers of PSNS and IMF.
5. A discussion concerning the restructuring of IMF Training and possible training scenarios once the two commands are consolidated was held. All ideas and recommendations were tabled until additional information becomes available.
6. The meeting adjourned at 09:40.
7. The next meeting will be on 24 May 2001 at 09:00 via telephone conference call.

ATTENDEES:
